The goal of Jackson Regional Laundry is to process laundry for participating state agencies in the most cost-efficient manner possible in order to minimize the laundry cost to each agency.

OBJECTIVES AND PERFORMANCE INDICATORS

Unless otherwise indicated, all objectives are to be accomplished during or by the end of FY 2000-2001. Performance indicators are made up of two parts: name and value. The indicator name describes what is being measured. The indicator value is the numeric value or level achieved within a given measurement period. For budgeting purposes, performance indicator values are shown for the prior fiscal year, the current fiscal year, and alternative funding scenarios (continuation budget level and Executive Budget recommendation level) for the ensuing fiscal year (the fiscal year of the budget document).

The total means of financing for this program is recommended at 106.2% of the existing operating budget. It represents 97.1% of the total request (\$1,202,802) for this program. The overall increase is a result of a carryforward of surplus revenue and an adjustment due to the increase in laundry poundage from Villa Feliciana Medical Complex. These changes will allow Jackson Regional Laundry to now provide centralized laundry services to Villa.
